14 December 2020

Dear Patients

We would like to inform you we have signed up to deliver the COVID Vaccination Programme.

We will be working in collaboration with our Primary Care Network (PCN) neighbours; Alvanley Family Practice, Chadfield Medical Practice, Bredbury Medical centre, Guywood Practice and Woodley Village Surgery.

Our vaccination site will be at Bredbury Medical Practice, 1 Auburn Avenue, Bredbury, Stockport, SK6 2AH

We are extremely pleased to offer the COVID vaccine to our patients, but the logistics of delivering it are challenging. Vaccines will be delivered to our vaccination site with only a 10 day notice period. We will then need to administer the 975 doses of the vaccine within a 3 days window period.

We will be relying on staff (Doctors, Nurses, Health Care Assistants and Admin) from all our PCN practices to help staff our vaccination site. As a result, you may find that appointment availability at the surgery is reduced. The wait for appointments may be longer than normal, appointments may need to be rearranged at short notice and responding to queries may also take longer.

We would like to reassure you that the practice will continue to be open and will maintain its normal opening hours.

Please do not call the surgery regarding your COVID vaccine. The vaccines are being rolled out with patients being placed in different priority groups. You will be contacted (if you are eligible) directly when your vaccine is available.

Further information will be available on our website soon, including details of the COVID vaccination advice helpline. We apologise for any inconvenience this may cause and we thank you for your understanding.

Kind Regards

Drs Chanda, Parker and Thiagaragan
